⚡ SYSTEM PURPOSE & VALUE PROPOSITION

The **Daroodi Lead Agent** acts as an autonomous sales and client acquisition engine for Daroodi Haute Couture. It automates prospect scraping (via Apify & VPS actors), filters high-fit luxury retailers, event organizers, and wedding planners, drafts hyper-personalized outreach using RAG knowledge, and handles multi-channel follow-ups.

2. CONSOLE HUB & CAMPAIGNS FOLDER

TABS 1 & 2

Tab 1: 🌟 Dashboard Console

WHAT IT IS

The central executive lead generation command center. Displays total Apify scraped leads, VPS leads, qualified prospects, review queues, and average brand fit score. Features the instant **Generate & Print PDF Report** engine.

WHAT TO DO

- ▶ Monitor total active pipeline leads and qualified prospect counts.
- ▶ Click 'Run agents' to trigger autonomous lead gathering and scoring.
- ▶ Select date ranges and click 'Generate & Print PDF Report' for stakeholder briefings.

Tab 2: Campaigns Folder

WHAT IT IS

Structured directory of all active and past outreach campaigns (e.g. B2B Boutique Retailers, Luxury Wedding Planners UK, High-Net-Worth Groom Styling).

WHAT TO DO

- ▶ Launch the Campaign Wizard to create new B2B targeted outreach sequences.
- ▶ Review campaign status badges (ACTIVE vs. PAUSED).
- ▶ Filter campaigns by niche, target country, or seasonal wedding collection.

3. OUTREACH LOGS & INBOX RESPONSES

TABS 3 & 4

Tab 3: Sent Outreach Logs

WHAT IT IS

Audit trail of every single email dispatched by the automated AI agent. Records recipient email, campaign name, timestamp, deliverability status, and subject line.

- WHAT TO DO**
- ▶ Verify daily email send volumes to remain within safe SMTP deliverability thresholds.
 - ▶ Inspect delivery confirmation timestamps to optimize dispatch hours.
 - ▶ Flag any bounced addresses to maintain immaculate domain reputation.

Tab 4: Inbox (Responses)

WHAT IT IS

Unified response inbox. Automatically aggregates incoming replies from prospective boutique partners, wedding coordinators, and bespoke clients.

- WHAT TO DO**
- ▶ Review replies flagged as 'Hot Lead' or 'Meeting Requested'.
 - ▶ Take over high-value conversations directly or dispatch regional country managers.
 - ▶ Forward bulk tailoring inquiries to the Daroodi Master Atelier.

4. ANALYTICS & CRM LEAD DATABASE

TABS 5 & 6

Tab 5: Analytics & Reports

WHAT IT IS

Comprehensive outreach performance analytics. Tracks open rates, reply rates, positive sentiment percentages, bounce rates, and conversion pipeline progress.

WHAT TO DO

- ▶ Compare performance between different email templates and subject lines.
- ▶ Identify top-converting geographic markets (e.g. UK vs. UAE vs. US).
- ▶ Optimize outreach schedules based on engagement heatmaps.

Tab 6: CRM & Lead Database

WHAT IT IS

The master prospect directory. Stores prospect names, company names, verified emails, phone numbers, enrichment scores, and deal pipeline stages.

WHAT TO DO

- ▶ Search and filter prospects by industry, location, or qualification score.
- ▶ Manually add VIP high-net-worth leads for private boutique outreach.
- ▶ Export lead records to CSV for integration with external CRM systems.

Tab 7: SMTP & Templates

WHAT IT IS

Email infrastructure and template repository. Manages SMTP sending accounts, sender names, warming settings, and dynamic template variables (e.g. {first_name}, {company}, {curated_coat}).

WHAT TO DO

- ▶ Create persuasive cold outreach email copies reflecting Daroodi's royal heritage.
- ▶ Configure SMTP sending limits (e.g. 50–100 emails/day) to safeguard inbox deliverability.
- ▶ Test email spam scores before activating mass outreach campaigns.

Tab 8: Outreach Direct

WHAT IT IS

Single-lead outreach studio. Allows sales executives to craft bespoke 1–to–1 emails to high–profile partners with instant test sending and preview capabilities.

WHAT TO DO

- ▶ Send custom partnership proposals to celebrity stylists or high–profile groom clients.
- ▶ Attach bespoke bridal lookbooks and custom pricing tiers.
- ▶ Review real–time email previews before dispatching.

6. RAG HUB, PRODUCT CATALOG & BULK ENGINE

TABS 9, 10, 11

Tab 9: RAG Knowledge Hub

The AI agent's brain. Houses brand history, embroidery craft techniques (Zardozi, Tilla, Resham), pricing rules, and sizing guides. The AI uses this vector base to craft accurate, brand-aligned email answers.

Tab 10: Product Catalog

Synchronized product catalog. Provides the AI agent with real-time access to Daroodi's masterpiece coats, images, prices, and fabric compositions for inclusion in outreach emails.

Tab 11: Bulk Campaign

Mass personalized outreach execution. Upload CSV lists of vetted prospects, map personalization columns, set sending delays, and launch automated campaign queues.

🚀 STEP-BY-STEP CAMPAIGN LAUNCH ROUTINE

- ▶ **Step 1 (Scraping):** In Dashboard Console, run scrapers for target keywords (e.g. "luxury wedding planner London").
- ▶ **Step 2 (Qualification):** AI agent scores each lead based on website quality, social following, and relevance.
- ▶ **Step 3 (Template Selection):** In SMTP & Templates, choose the appropriate luxury couture introduction copy.
- ▶ **Step 4 (Launch):** In Campaigns Folder or Bulk Campaign, launch the queue with 60-second dispatch intervals.
- ▶ **Step 5 (Closing):** When responses arrive in Inbox, tag warm leads and connect them to Daroodi's atelier sales team.
