ROLE-BASED ACCESS CONTROL (RBAC) HIERARCHY

The platform enforces 6 distinct user privilege tiers:

- 1. Super Admin:** Unrestricted master governance across all 13 modules, database records, and settings.
- 2. Production Manager:** Catalog maintenance, inventory control, and ACF craftsmanship specifications.
- 3. Master Tailor:** Active client commission oversight, tailoring stages, and client measurements matrix.
- 4. Finance Manager:** Revenue auditing, commission payouts ledger, and financial reporting.
- 5. Country Head / Agent:** Regional client sales management and referral commission tracking.
- 6. Customer:** Personal profile, measurement storage, and bespoke order tracking.

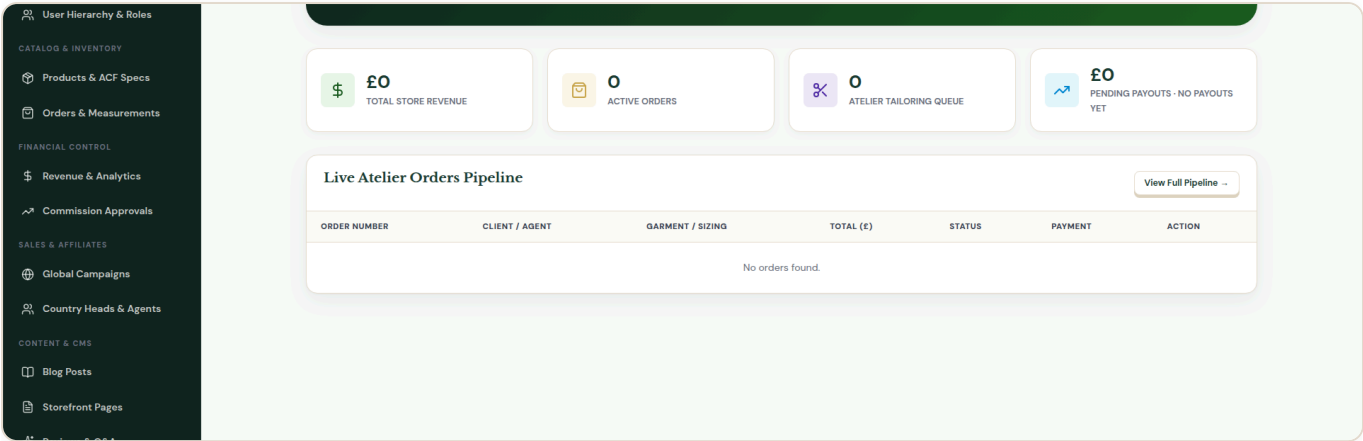

AUTOMATIC ROLE ROUTING ARCHITECTURE

When signing in at /auth/login, the system automatically checks the user's role: Customers land safely on /account to inspect their commissions. Any staff or Super Admin member is automatically routed to /admin. If an administrator visits /account, the server automatically forwards them directly to the admin dashboard.

2. OVERVIEW & USER GOVERNANCE

TABS 1 & 2

Tab 1: Overview & Executive KPIs (/admin)

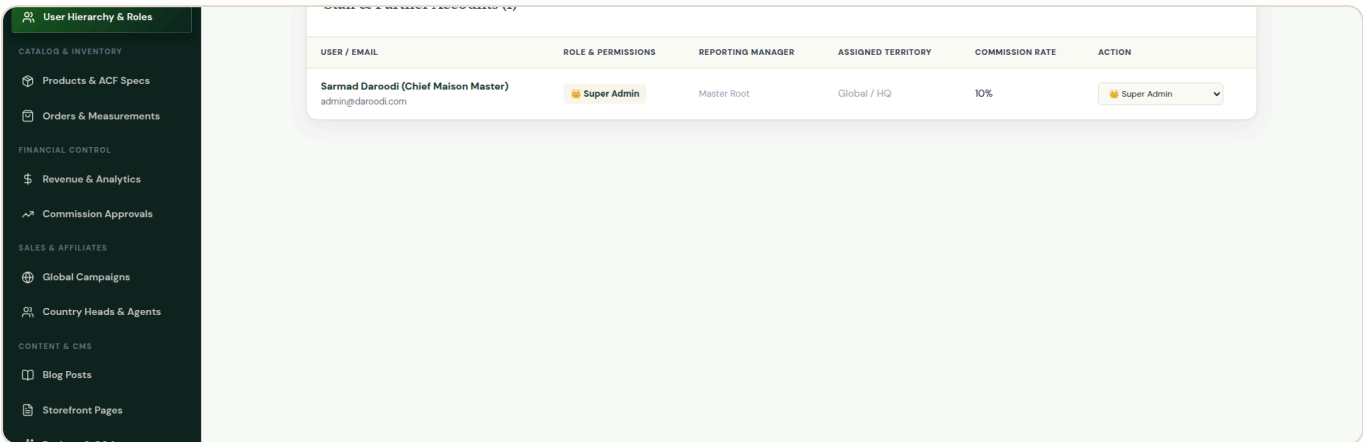

WHAT IT IS

The primary executive cockpit displaying live Gross Merchandise Value (GMV), active bespoke commissions, total orders, commission liabilities, and conversion rates in real time.

WHAT TO DO

- ▶ Review daily gross revenues and incoming client commissions.
- ▶ Monitor active order throughput across tailoring production queues.
- ▶ Identify urgent customer requests requiring master tailor review.

Tab 2: User Hierarchy & Roles (/admin/users)

WHAT IT IS

Enterprise user management suite. Displays all registered accounts, emails, roles, and registration dates with direct role promotion and permission controls.

WHAT TO DO

- ▶ Promote atelier team members to Production Manager, Master Tailor, or Finance Manager.
- ▶ Audit staff access logs and adjust permissions when team responsibilities change.

- ▶ Maintain separation of duties to ensure robust security compliance.

Tab 3: Products & ACF Specs (/admin/products)

User Hierarchy & Roles

CATALOG & INVENTORY

Products & ACF Specs

Orders & Measurements

FINANCIAL CONTROL

WHAT IT IS

The core inventory and masterpiece catalog system. Controls titles, slugs, prices, collections (Platinum, Gold, Silver, Bespoke Essentials), fabric compositions, hand-embroidery hours, care instructions, and image galleries.

🌟 DIRECT FILE UPLOAD FEATURE (NEW!)

Under Tab 4 (Media & Gallery) of the Product Editor:

- **Primary Featured Image:** Click the 📁 **Upload New** button to select an image from your computer. It immediately saves to storage and sets the primary preview.
- **Multi-Photo Gallery:** Click the gold 📁 **Upload Photos** button to select multiple high-resolution angles at once. They appear instantly in the visual thumbnail grid with 1-click delete buttons.

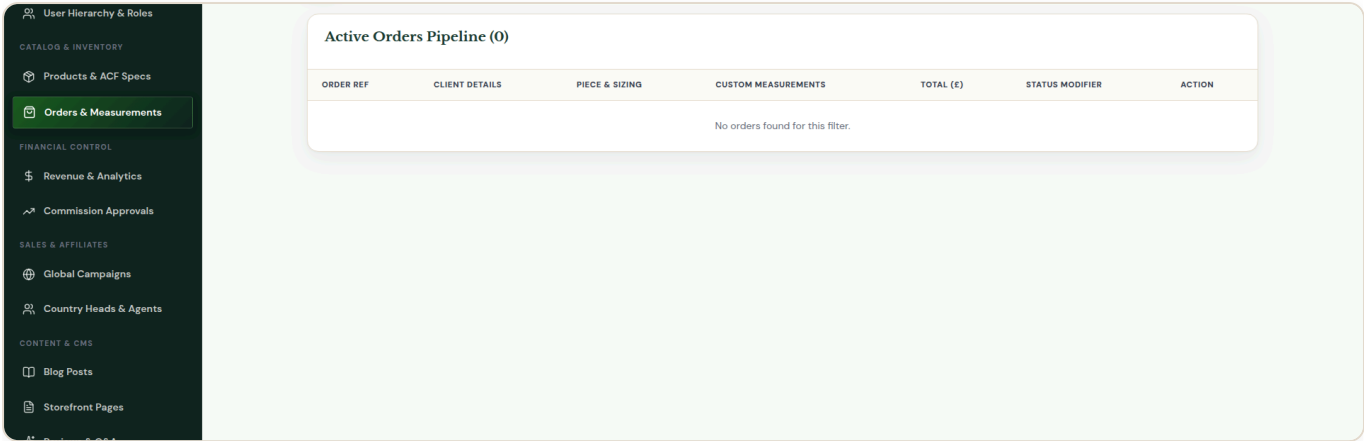

WHAT TO DO

- ▶ Click **+ Create Masterpiece** to introduce a new coat design to the storefront.
- ▶ Enter bespoke pricing: Base Price, Regular Price, and optional Sale Price.
- ▶ Fill ACF Specifications: Embroidery Technique (Zardozi, Tilla, Resham), Fabric, and Lead Time.
- ▶ Upload gallery photos directly from your device and click **Save & Publish**.

4. ORDERS, MEASUREMENTS & FINANCE

TABS 4 & 5

Tab 4: Orders & Bespoke Measurements (/admin/orders)

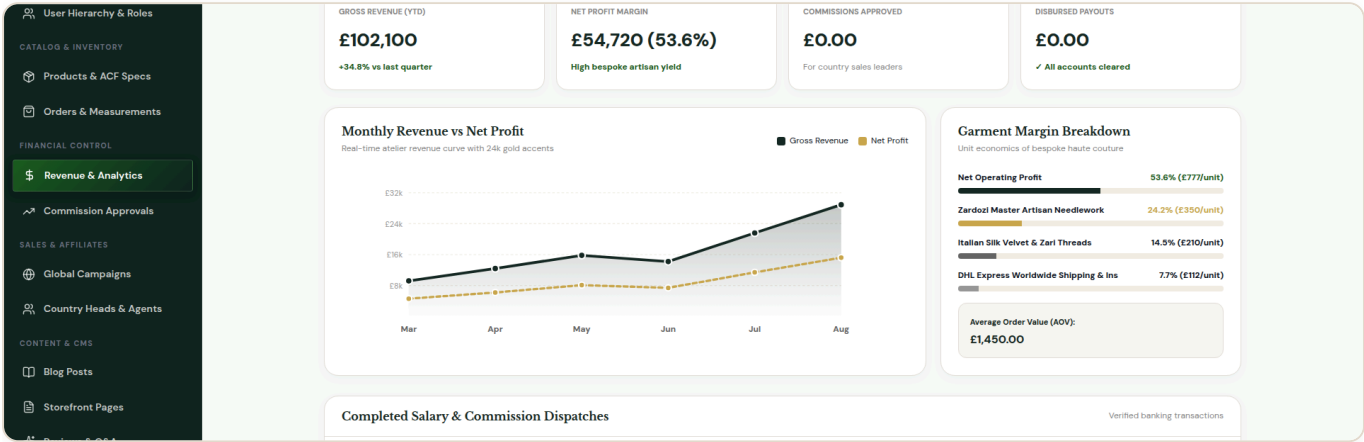

WHAT IT IS

The tailoring production pipeline. Tracks all bespoke client commissions with exact body measurement matrices (Chest, Waist, Hip, Shoulder, Sleeve, Neck, Inseam, Height), client contact details, and tailoring milestones.

WHAT TO DO

- ▶ Review client body measurements with the master cutter prior to fabric cutting.
- ▶ Update order stages: Consultation → Cutting → Embroidery → Assembly → Fitting → Dispatched.
- ▶ Click direct WhatsApp links to notify clients with tailoring photos and courier tracking.

Tab 5: Revenue & Financial Analytics (/admin/finance)

WHAT IT IS

Financial reporting ledger summarizing gross revenue, net atelier profit, average order values (AOV), and payment method distribution (Stripe, Bank Transfer, Cash on Delivery).

WHAT TO DO

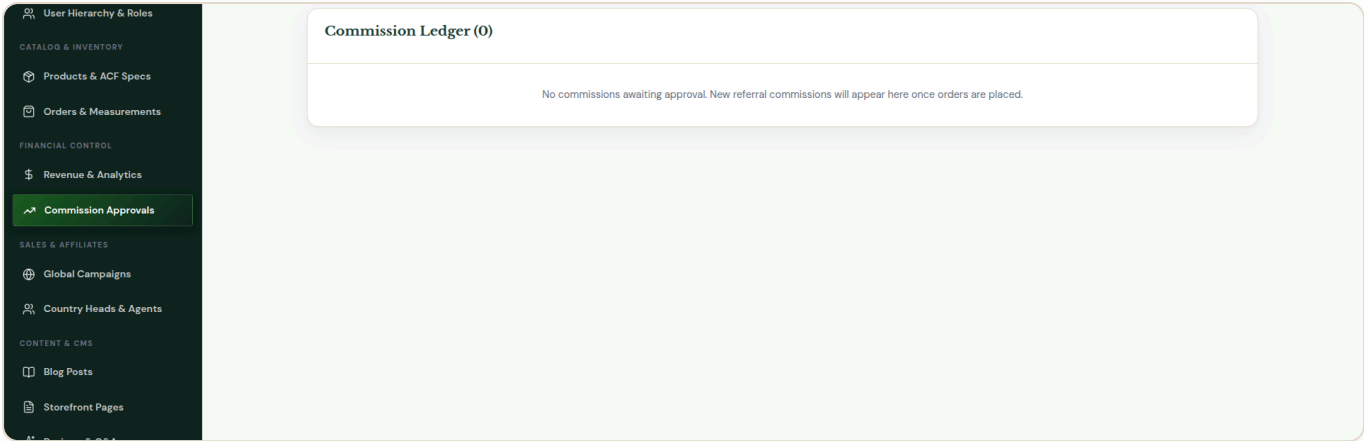

- ▶ Audit monthly revenue curves to identify wedding season demand spikes.

- ▶ Verify payment settlement statuses and reconcile banking records.
- ▶ Analyze profitability across bespoke tiers (Platinum vs. Gold vs. Silver).

5. COMMISSIONS & GLOBAL CAMPAIGNS

TABS 6 & 7

Tab 6: Commission Approvals & Payouts (/admin/finance/payouts)

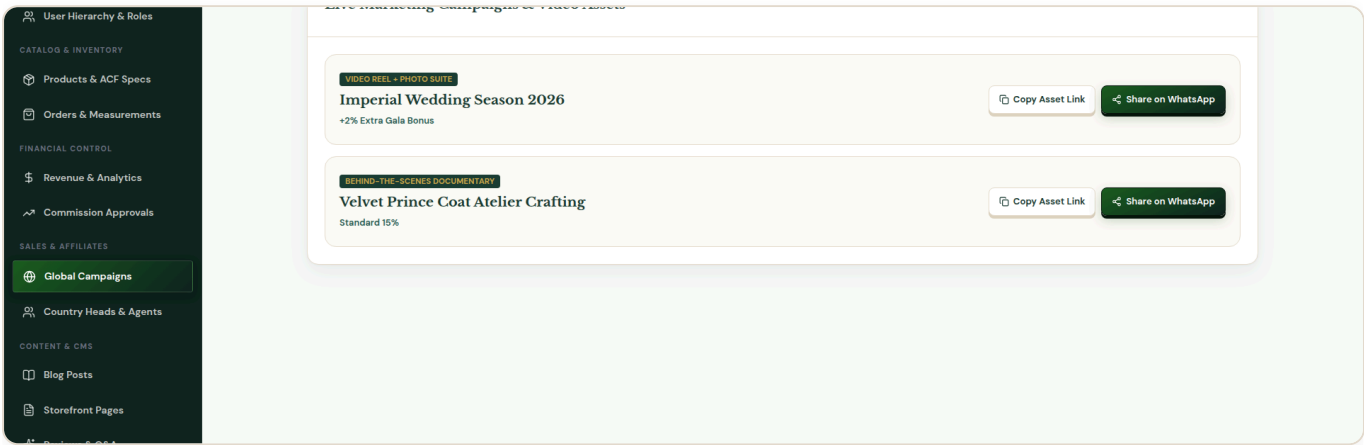

WHAT IT IS

Automated sales agent compensation ledger. Calculates referral commissions earned by regional ambassadors and country managers on completed bespoke orders.

WHAT TO DO

- ▶ Audit pending commission claims against confirmed dispatched orders.
- ▶ Approve verified agent earnings and disburse payments via wire transfer.
- ▶ Maintain transparent commission logs for tax compliance and auditing.

Tab 7: Global Marketing Campaigns (/admin/marketing)

WHAT IT IS

Promotion and discount voucher engine. Enables administrators to create percentage or fixed discount coupons, seasonal flash banners, and private VIP invitation vouchers.

WHAT TO DO

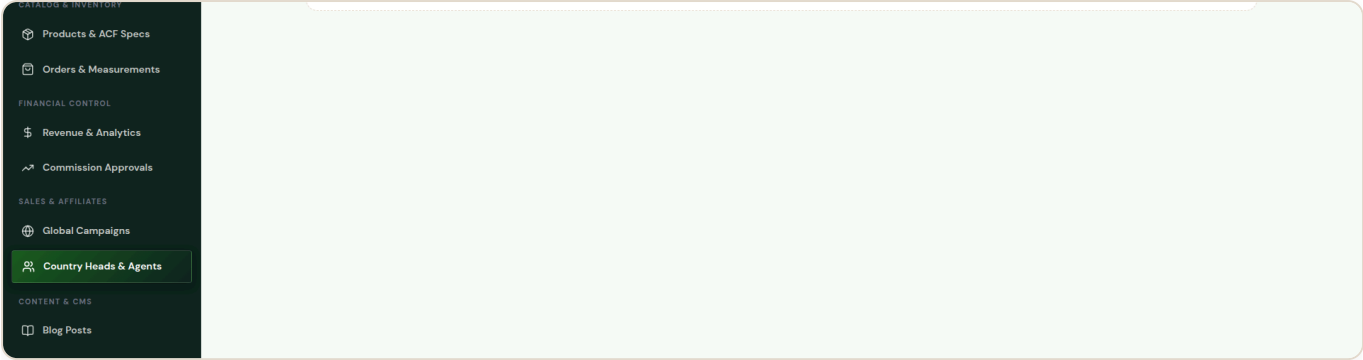

- ▶ Generate custom promo codes (e.g. ROYALWEDDING2026, VIPDAROODI).
- ▶ Set expiration dates, minimum spend thresholds, and maximum usage quotas.

- ▶ Publish top announcement banners across the storefront.

6. AGENTS, EDITORIAL & STOREFRONT PAGES

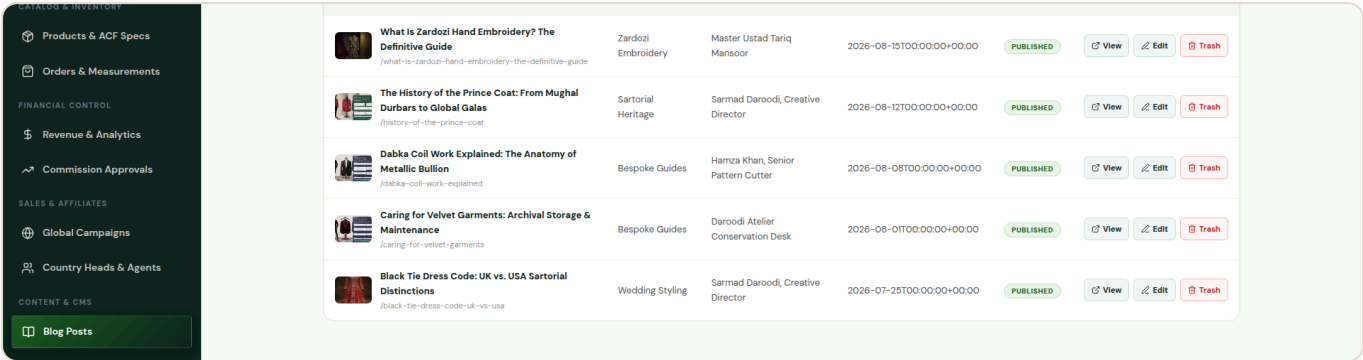

TABS 8, 9, 10

Tab 8: Country Heads & Regional Agents (/admin/marketing/country-managers)

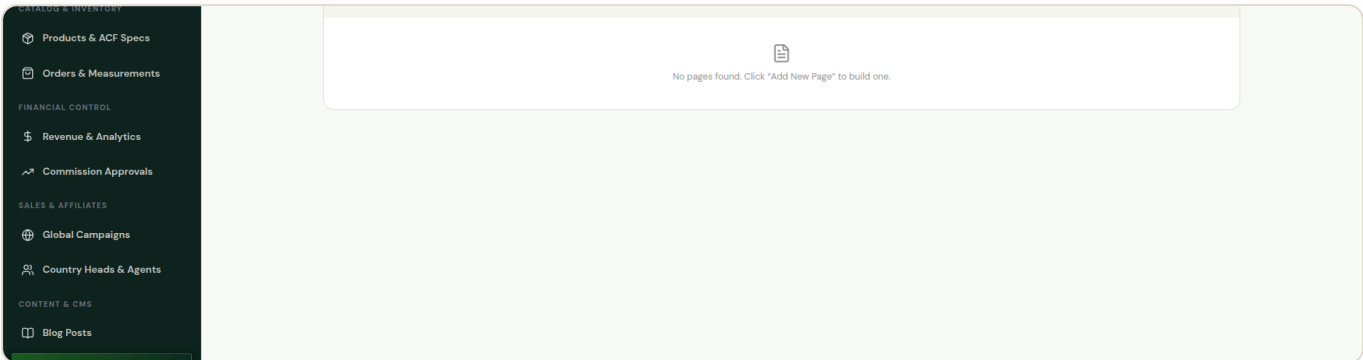

Oversee international sales directors in key luxury hubs (London, Dubai, New York, Lahore). Assign territories, set quarterly bespoke quotas, and monitor regional closing rates.

Tab 9: Editorial Journal CMS (/admin/posts)

Publish articles in the Daroodi Journal celebrating royal craftsmanship traditions, groom styling guides, and fabric care. Optimize meta titles and tags to boost organic search rankings.

Tab 10: Storefront Pages CMS (/admin/pages)

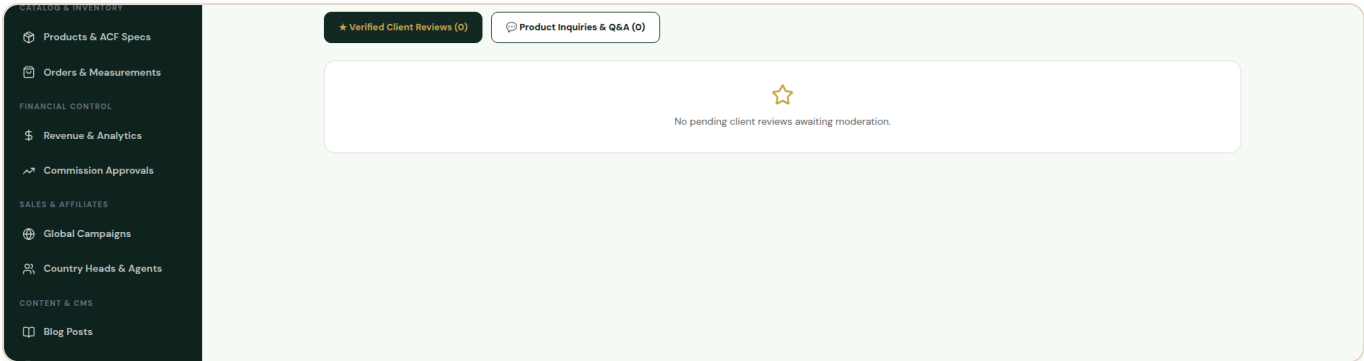

Maintain copy and hero photography across static pages: Our Heritage, Atelier Archive, Sahib Ali Foundation, Terms & Conditions, and International Shipping Policies.

7. REVIEWS, ANALYTICS & TRACKING

INTEGRATIONS

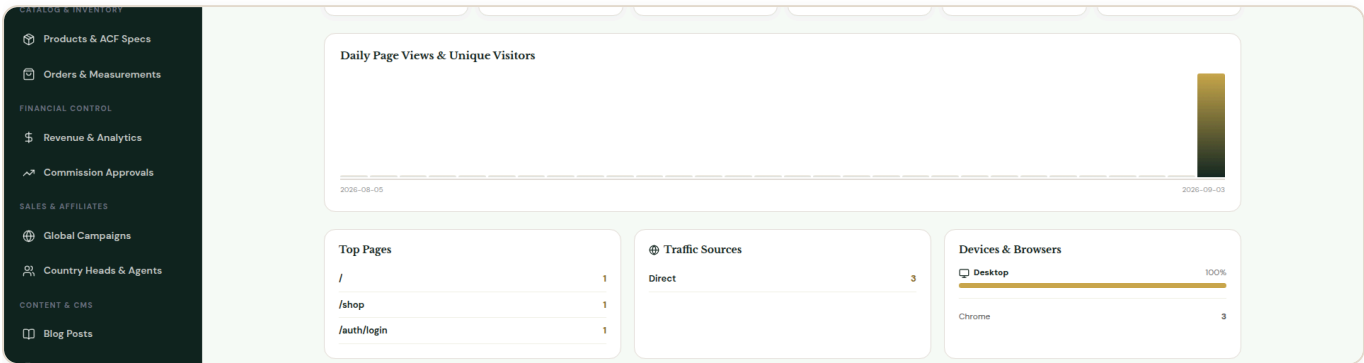

TABS 11, 12,
13

Tab 11: Customer Reviews & Q&A (/admin/cms)

Review and publish client testimonials. Pin 5–star wedding reviews to product pages and reply to customer inquiries regarding fabric samples and delivery schedules.

Tab 12: Visitor Traffic Analytics (/admin/analytics)

Analyze real-time visitor traffic, top product views, geographic client locations (UK, US, UAE, PK), and mobile vs. desktop visitor ratios.

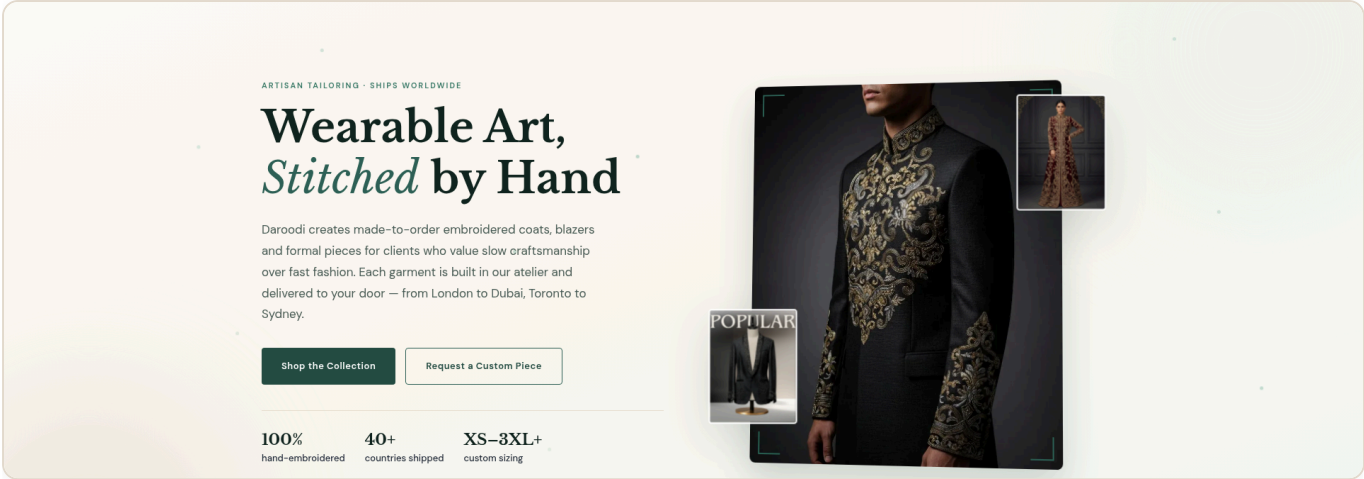

Tab 13: Tracking Pixels & Integrations (/admin/settings)

The screenshot shows the 'Tracking Pixels & Integrations' interface. On the left is the same dark sidebar as in Tab 11. The main area contains three sections for tracking pixels, each with a 'NOT INSTALLED' button: 'GA4 Measurement ID' (with a text input field for 'G-XXXXXXX'), 'Google Tag Manager Container ID' (with a text input field for 'GTM-XXXXXXX'), 'Meta (Facebook & Instagram) Pixel' (with a text input field for 'Pixel ID' and a description: 'Fires PageView, ViewContent, AddToCart, InitiateCheckout and Purchase automatically.'), and 'TikTok Pixel' (with a text input field for 'Pixel ID' and a description: 'Fires Browse, ViewContent, AddToCart, InitiateCheckout and CompletePayment automatically.').

Install marketing pixels without developer intervention. Enter your GA4 Measurement ID, GTM Container ID, Meta Pixel, and TikTok Pixel. Scripts go live immediately upon saving.

8. LIVE STOREFRONT FLAGSHIP

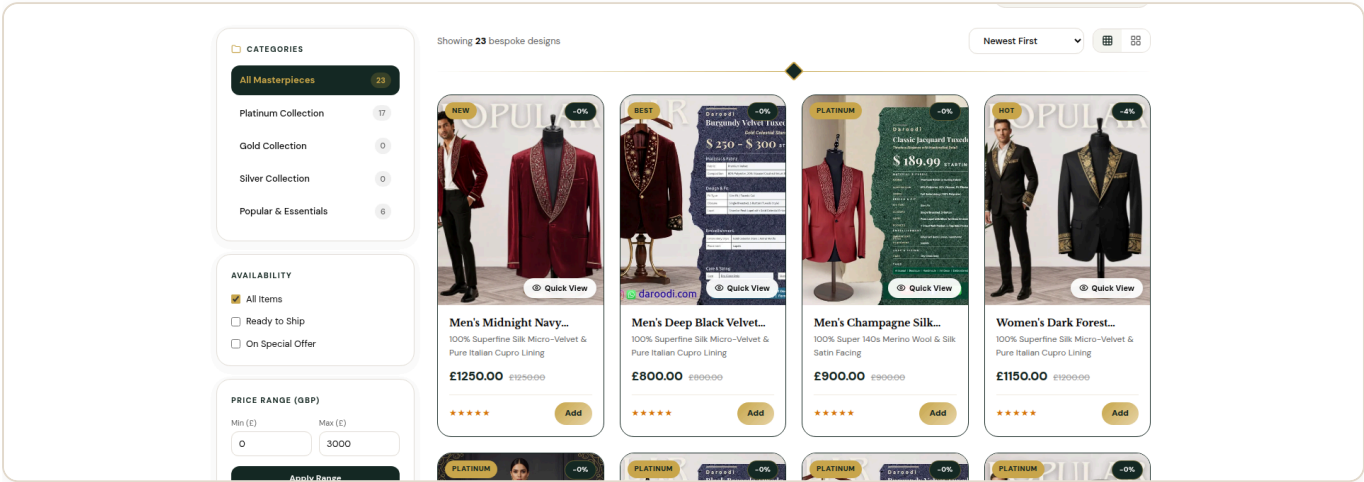

Storefront Flagship Homepage (https://www.daroodi.com)

CLIENT DIGITAL EXPERIENCE

Features an interactive 3D hero carousel, Trustpilot five-star credentials, royal heritage narrative, and high-conversion collection entry points (Platinum, Gold, Silver).

Masterpiece Catalog (https://www.daroodi.com/shop)

PRODUCT SHOWCASE & SIZING MATRIX

Each coat features multi-angle photography, fabric weights, hand-embroidery hours, lead time estimates, and an interactive bespoke inquiry modal.

9. OPERATIONAL SOPS & CHECKLIST

BEST PRACTICES

DAILY MORNING EXECUTIVE ROUTINE

- ▶ **09:00 AM:** Sign into <https://www.daroodi.com/auth/login> as Super Admin.
- ▶ **09:05 AM:** Review Overview KPIs for overnight client inquiries and orders.
- ▶ **09:15 AM:** In Orders & Measurements, inspect new sizing submissions and verify with Master Tailor.
- ▶ **09:30 AM:** Advance completed garments to 'Dispatched' and trigger WhatsApp notifications.

MASTERPIECE PUBLISHING SOP

- ▶ Prepare high-resolution photos of new coat designs (front, back, embroidery close-ups).
- ▶ Open Products & ACF Specs tab (/admin/products) and click '+ Create Masterpiece'.
- ▶ Use the direct upload button to upload photos straight from your device into the gallery.
- ▶ Set accurate fabric composition, embroidery hours, and lead time in weeks.
- ▶ Click 'Save & Publish' — the product is live on daroodi.com immediately.

SECURITY & DISASTER RECOVERY

- ▶ Super Admin credentials must only be shared with authorized C-suite executives.
- ▶ Database backups are automatically maintained by Supabase PostgreSQL.
- ▶ Application code is securely versioned in GitHub (`officialdaroodi-stack/daroodi`) with instant Vercel rollbacks if required.
